## Agenda 5<sup>th</sup> Workshop (project validation meeting)

Validation of Metrics-Based Quality Control

### Overview

#### Date/Location

Date: 11<sup>th</sup> of April 2008  
Time: 12.30h – 16.15h  
Location: .Windh, Malmö

#### Participants

ARiSA: Rüdiger Lincke  
Windh: Emil Eiffrém, daQapo developer,  
DB developer

#### Purpose

1. Catching up with the project.
2. Wrap-up daQapo.
  - a. Collect validation metrics – Interview
  - b. Collect validation metrics – Questionnaire
  - c. Feedback FCA daQapo
3. Restart project with Database system (DBS)
  - a. Explain project goal/architecture
  - b. Define quality goals – what model and validation metrics to collect
  - c. Get data for first of six instances right away (if feasible)
    - i. Get source of DBS for model metrics extraction
    - ii. Collect validation metrics
  - d. Discussion of available information and technical realization of Quality Monitor installations. Detailed planning and realization regarding the individual partner infrastructure.

### Agenda

12.30h	Lunch	
13.15h	Opening with Initial remarks <ul style="list-style-type: none"> <li>– Outline for this workshop, motivation and goals</li> <li>– Summarizing the current status of the project</li> <li>– News from the partners (?)</li> </ul>	
13.30h	Wrapping up daQapo I <ul style="list-style-type: none"> <li>– Interview with daQapo developer (feedback FCA, collecting validation metrics)</li> <li>– Questionnaire daQapo developer</li> </ul>	
14.15h	Discussion of new project available for research (Database system) (Emil, Rüdiger) <ul style="list-style-type: none"> <li>– Overview about system</li> <li>– Discuss quality goals</li> <li>– Get copy of source</li> </ul>	Wrapping up daQapo II (daQapo developer) <ul style="list-style-type: none"> <li>– Questionnaire daQapo developer</li> </ul>
15.00h	Presentation and brief discussion of information retrieval for DB project <ul style="list-style-type: none"> <li>– Goal: arrange for taking 6 snapshots of the system source and validation data during the coming 6 month (April through October 2008), one per month</li> <li>– What kind of information (e.g. on bugs, test data, development costs etc.)?</li> </ul>	

	<ul style="list-style-type: none"><li>- What format, how can it be accessed?</li><li>- What can we derive from this information?</li><li>- What relevance does it have for the partners?</li></ul>
15.30h	<b>Interview/Questionnaire developer Database System</b> <ul style="list-style-type: none"><li>- Same questionnaire as with daQapo, for collecting validation metrics</li></ul>
16.00h	<b>Closing</b>
